September 2018

Summer 2018 Cohort Nurse Residency

It is your **professional responsibility** to **mark your personal** and **unit calendars with these dates** to ensure your full participation in each of the following events and completion of Residency. Your commitment form states ***not to work the night before, please request off*** accordingly. If at all possible, absences and make-up classes should be planned before missing the scheduled Seminars. Completion of Nurse Residency Seminars, Evidence Based Practice project, RN licensure for a year, attendance of two unit based shared leadership meetings, and completions of unit provided training are required for your advancement from Staff Nurse I to II. Monthly seminars run four hours and will allow for time to work on an approved EBP Project and reflection on your first year as a professional nurse. Experienced facilitators will guide Tiger Tale groups during the first hour of Seminars.

Please do not schedule State Boards or Vacation during Immersion Week or Monthly Seminars.

Immersion Week: 7/16/18 – 7/20/18 (32 hours, block 0730-1730 days with CED)
