Add Family History

Last Update: 12/4/2008 10:15 by Hinton NSS, Elaine L Focus Mode

	Relationship	Father	Mother
Name	Ztestone, Ezeey	Ztestone, Mis...	
Health Status			
QuickList		Negative	Unknown
Age-related osteoporosis	-		+
General			
Alcohol abuse	-		
Arthritis	-		+
Bilateral hearing loss	-		+
CA - Breast cancer	-		
CA - Cancer of colon	-		
CA - Cancer of prostate	-		
Cancer of ovary	-		
Dementia	-		
Depression	-		
Diabetes mellitus type II	-	+	
Hypertension	-	+	
Ischemic heart disease	-		
Malignant melanoma	-		

▼ Add Group

5) Click the **drop-down arrow** if the *Health Status* is *Negative* or *Unknown*.

6) Click in the **Blue** column to indicate this family member has the condition listed on that row. A + indicates this condition is positive for this family member.

Note: Clicking in the **White** column puts a minus (-) in that column, which would indicate this family member does NOT have this condition.

Add Family History

Last Update: 12/9/2008 08:44 by Hinton NSS, Elaine L Focus Mode

	Relationship	Father	Mother
Name	Ztestone, Ezeey	Ztestone, Mis...	
Health Status			
QuickList		Negative	Unknown
Age-related osteoporosis	-		+
General			
Alcohol abuse	-		
Arthritis <i>double click for details</i>	-		+
Bilateral hearing loss	-		+
CA - Breast cancer	-		

7) **Double click** in the **+ Blue column** to record information about that condition.

Using the Family Hx Tab

8) Enter any comments relevant to this condition for this family member. It automatically date & time stamps your entry along with your name.

9) **Age** is in **blue** to indicate it is a link to more selections for **Onset Age**. **NOTE:** This field is not required.

The screenshot shows the 'Update Family Member' dialog box with the following fields and callouts:

- First Name:** Miszeey
- Last Name:** Ztestone
- Gender:** Female
- Birth:** Date: 12/03/1920
- Deceased
- Age at Death:** Age: 0
- Condition:** Arthritis
- Onset Age:** Age: 62
- Comment:** Severe arthritis in the right knee. Unable to bend more than 45 degrees.
- Life Cycle:** Active
- Severity:** Severe
- Course:** Stable
- Include All Children
- Arthritis Subtypes List:**
 - Acute arthritis
 - Arthritis associated with another disorder
 - Arthritis by pattern of joint involvement
 - Arthritis following intestinal bypass
 - Arthritis of knee (highlighted)
 - Arthritis of spine
 - Arthritis of temporomandibular joint
 - Arthropathy in Behcet's syndrome of the ankle and/or foot
 - Arthropathy in Behcet's syndrome of the forearm
 - Arthropathy in Behcet's syndrome of the hand
 - Arthropathy in Behcet's syndrome of the lower leg
- Buttons:** OK, Cancel

10) Complete the *Life Cycle*, *Severity*, &/or *Course* by clicking the **drop-down arrows** in each field, if applicable.

11) Select a subset of arthritis, if applicable.

12) Click **OK** to update and close.

Using the Family Hx Tab

Add Family History

Last Update: 12/9/2008 08:44 by Hinton NSS, Elaine L Focus Mode

	Relationship	Father	Mother
Name	Ztestone, Ezeey	Ztestone, Mi	
Health Status			
QuickList			
Age-related osteoporosis	-		+
General			
Alcohol abuse	-		
Arthritis	-		+

double click for details

13) Click the **binoculars** to search for and add a new condition to that section.

14) Type in the **Search** field to find a condition. Remember, changing the filter to *Contains* offers the broadest search results.

Condition Search

*Search: hearing Contains Within: Terminology

Search by: Name Code

Terminology: <All terminologies> Terminology Axis: <All terminology axes>

Term	Code	Terminology	Terminology Axis
Able to use hearing aid	423942011	SNOMED CT	Finding
ADN - Auditory disability with normal hearing	348073019	SNOMED CT	Finding
Age-related hearing loss	1230737011	SNOMED CT	Finding
Articulatory defect due to conductive hearing loss	80699013	SNOMED CT	Finding
Articulatory defect secondary to hearing loss	80700014	SNOMED CT	Finding
Auditory disability with normal hearing	348071017	SNOMED CT	Finding
BAHA - Bone anchored hearing aid	450053018	SNOMED CT	Physical object
Bilateral hearing loss	158700015	SNOMED CT	Finding
Body worn hearing aid	486651019	SNOMED CT	Physical object
Bone anchored hearing aid		SN	
Central hearing loss	113715	SN	
Central hearing loss	299 1.4		

Scratch Pad:

Persistence	Condition Name
<input checked="" type="checkbox"/>	Bilateral hearing loss

OK Cancel

15) Click the **drop-down arrow** to display the *Advanced Options* – as displayed here, if needed.

16) **Double-click** the condition to display it on the *Scratch Pad* below.

17) Once displayed on the *Scratch Pad*, click **OK**.

Multiple conditions can be added to the *Scratch Pad* while in this window.

Using the Family Hx Tab

18) Now the new condition is added to this section.

Ischemic heart disease	-		
Malignant melanoma	-		
Other	-		
Stroke	-		

19) **Note:** You can also add conditions to the *QuickList* following the same procedure.

20) **OR** use the **Other** category to quickly add an additional condition & details instead of searching to add another specific condition.

Using the Family Hx Tab

Using the "Other" condition

The screenshot shows a software window titled "Update Family Member - Mother". The form is divided into sections. The "Hide Family Member Information" section contains fields for "First Name" (Miszeey), "Last Name" (Ztestone), a "Deceased" checkbox, "Age at Death", and "Cause of Death". The "Condition" section has a dropdown menu set to "Other" and an "Onset Age" field set to "80". The "Comment" section contains a text area with the text "12/11/2008 08:57 - Hinton NSS, Elaine L. Record the new condition and details here." and an "Add Comments" button. Below this is the "Hide Additional Details" section, which includes "Life Cycle" and "Children" checkboxes. A yellow callout box points to the "Add Comments" button and contains the text: "21) Record the details about a specific condition in the *Comments* section. It automatically date & time stamps the entry along with inserting your name when you click **OK**." A second yellow callout box points to the "Add Comment" dialog box and contains the text: "22) To add another new condition, click the **Add Comments** button. Include the *Onset Age* inside the *Add Comment* box if it is different than listed in the field above. The *Onset Age* for this condition will then display inside a PowerNote. **NOTE**: Onset Age is not a required field." The "Add Comment" dialog box has a text area with the text: "Record another new condition by clicking the Add Comments button. Include the Onset Age for this condition in this comments box if you want it to display inside the PowerNote." and "OK" and "Cancel" buttons.

22) To add another new condition, click the **Add Comments** button. Include the *Onset Age* inside the *Add Comment* box if it is different than listed in the field above. The *Onset Age* for this condition will then display inside a PowerNote. **NOTE**: Onset Age is not a required field.

Using the Family Hx Tab

23) Click **Add Family Member** to select a specific member to record relevant conditions.

This example shows a brother has been added.

The screenshot shows the 'Add Family History' window. At the top, there are tabs for 'Family', 'Past Medical', and 'Procedure'. Below the tabs, there is a 'Mark all as Reviewed' button and a 'Family' dropdown menu. The main area contains a table with columns for 'Relationship', 'Father', 'Mother', and 'Brother'. The 'Relationship' column is currently set to 'Brother'. The table lists various conditions with checkboxes for each relationship type. A dropdown menu is open, showing relationship options: Aunt, Brother (selected), Daughter, Grandfather, Maternal, Grandfather, Paternal, Grandmother, Maternal, and Grandmother, Paternal. At the bottom right, there are 'OK' and 'Cancel' buttons.

Relationship	Father	Mother	Brother
Name	Ztestone, Ezeey	Ztestone, Mis...	
Health Status			
QuickList			
Age-related osteoporosis	-		+
General			
Alcohol abuse	-		
Arthritis	-		+
Bilateral hearing loss	-		+
CA - Breast cancer	-		
CA - Cancer of colon	-		
CA - Cancer of prostate	-		
Cancer of ovary	-		
Dementia	-		
Depression	-		
Diabetes mellitus type II	-	+	
Hypertension	-	+	
Ischemic heart disease	-		
Malignant melanoma	-		
Other	-		

24) Click **OK** to update & close the *Add Family History* window. **Note:** if you don't click OK, you will lose all information.

25) This screen shows the information displayed in the format of *Condition View*.

The screenshot shows the 'Family Member Information' table in 'Condition View' format. The 'Display' dropdown is set to 'Condition View'. The table lists conditions for the selected family member (Brother) and the relationship.

Family Member Information	
Age-related osteoporosis	
Mother	
Arthritis	
Mother	
Bilateral hearing loss	
Mother	
Diabetes mellitus type II	
Father	
Hypertension	
Father	

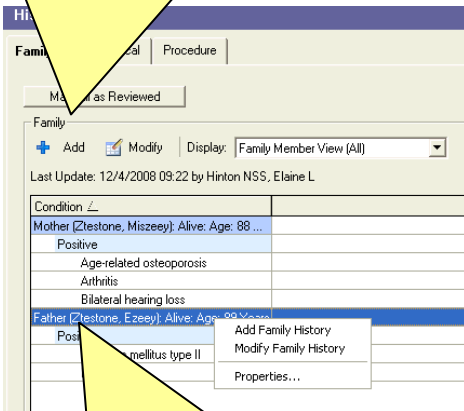

26) This screen shows the information displayed in the format of *Family Member View (All)*.

The screenshot shows the 'Family Member Information' table in 'Family Member View (All)' format. The 'Display' dropdown is set to 'Family Member View (All)'. The table lists conditions for the selected family member (Brother) and the relationship, including status (Positive).

Condition	
Mother (Ztestone, Miszeey): Alive: Age: 88 ...	
Positive	
Age-related osteoporosis	
Arthritis	
Bilateral hearing loss	
Father (Ztestone, Ezeey): Alive: Age: 89 Years	
Positive	
Diabetes mellitus type II	
Hypertension	

Using the Family Hx Tab

27) Click **+ Add** to modify the entire Family.

28) Modifying a specific family member:

- **Highlight** the family member
- **Right-click** to view menu
- Select **Modify Family History**

You will only see history for that specific family member (father) – as shown to the right.
