

# Customizing the Template of the Communicate Patient Letter

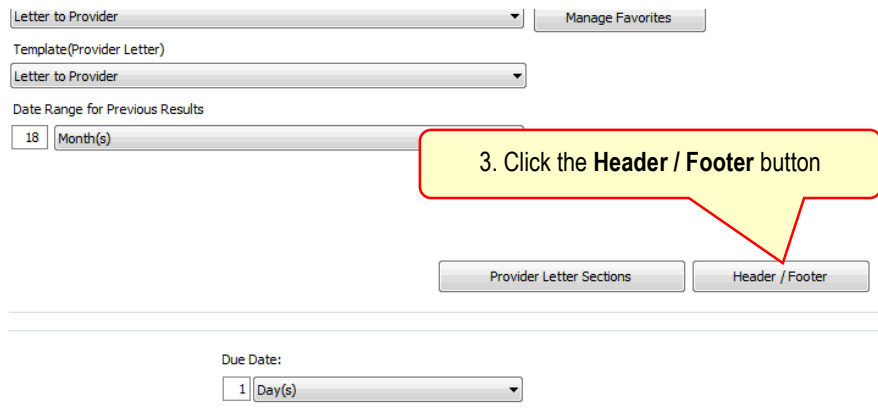

1. From Message Center, select **Inbox > Manage Preferences**

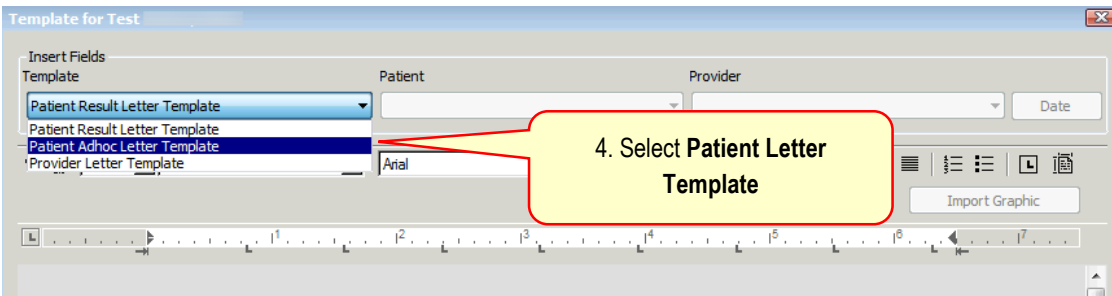

2. Select **Reminder/Letter**

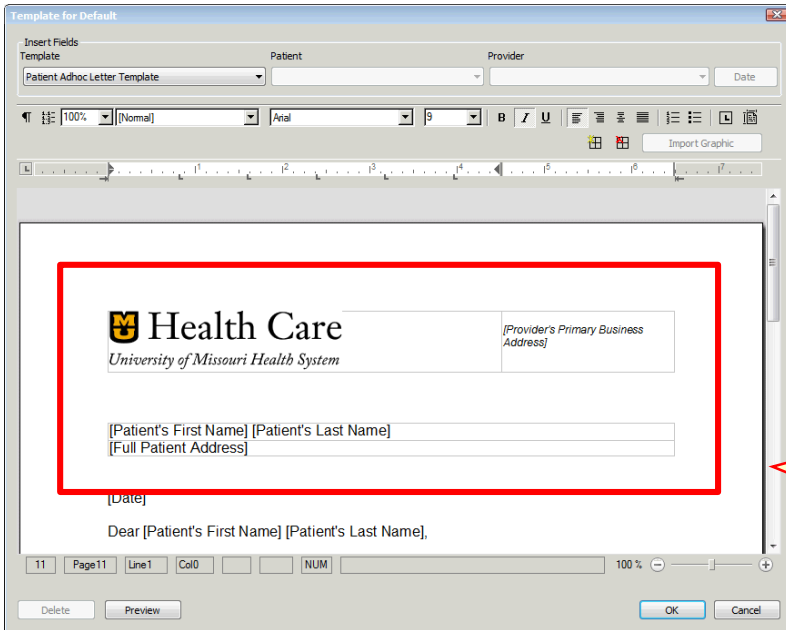

3. Click the **Header / Footer** button

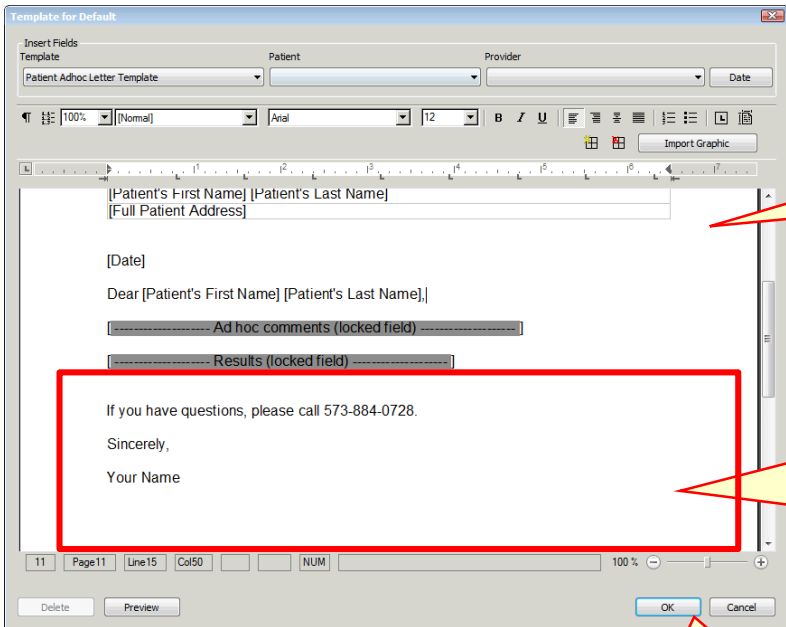

4. Select **Patient Letter Template**

**Important:** This top portion of the letter has been spaced and formatted so when the letter is tri-folded, the Patient's Name and Address will be visible inside a window envelope for mailing

Modify within the window.

Scroll down under the shaded fields to add any information you want to include on every Patient Letter you send

The information in the red square has been added for demonstration purposes

When you have added your information, click the **OK** button
