

Discharge Patient Encounter

Discharging the patient encounter action will occur in PowerChart and FirstNet as of March 20, 2021. This discharge encounter process will be required to discharge the following patient types: Inpatient, Observation, and Outpatient in a Bed.

1. Open the desired patient's chart. Click the *PM Conversation* drop-down arrow

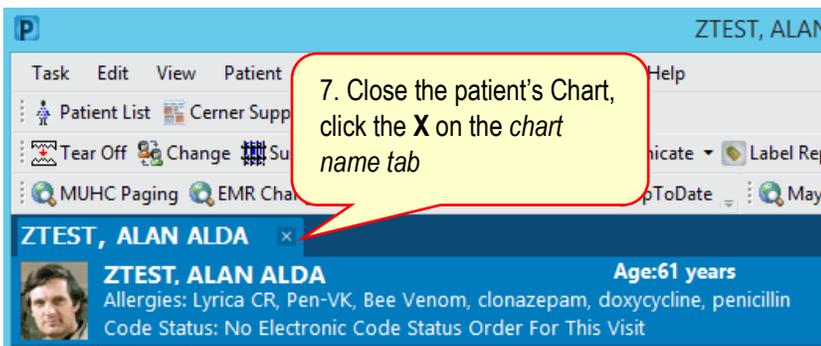

2. Click **Discharge Encounter (MU)** conversation

A screenshot of the 'Discharge Encounter (MU)' form. The patient information at the top is: MUITCYTWO, ITFIVEONE-ONE-AF (MUITCYTWO,) Female, 21 years, DOB: Jan 10, 2000. The form fields include: Facility (WCH), Building (WCH), Nurse/Ambulatory (MU WCH Maternal), Patient Type (Inpatient), Room (4429), Medical Service (Obstetrics), MRN (MU003902934), Encounter (MU070011928), Discharge Disposition (dropdown), Discharge To Location (dropdown), Discharge Date/Time (dropdown), Discharge Personnel (Reynolds RN, Megan Jean), Registration Date/Time (08/20/2020), Full Registration Date (08/21/2020), and Deceased Date (dropdown). A red callout box points to the 'Discharge Disposition' field.

3. Click into the **Discharge Disposition** field
4. Select the appropriate patient disposition

5. **Discharge Date/Time** the encounter ended (Date/Time patient was escorted off unit)

6. Click **Save and Close**

7. Close the patient's Chart, click the **X** on the *chart name tab*

8. Return to the *Patient List* view and click the **minutes ago** button to refresh your patient list
