

Adding Images in Dynamic Documentation

Images are able to be added to Dynamic Documentation using tagging from the Media Gallery component. This component allows you to view pictures that have been uploaded to the patients' chart and is integrated with Cerner mobile apps *PowerChart Touch* and *Capture*.

Navigating Media Gallery

In Workflow, click on or scroll to **Media Gallery**

Group by Date view

Change View by clicking Menu and changing to Group by Context Type or Group by Date

Problem List

Media Gallery (14)

Group by Context Type

Click View to see media in a larger view

Users can make the thumbnail images bigger or smaller by dragging the blue dial.

Tagging Images

Media Gallery (12)

To select media, Click in the box(s)

Single or multiple images may be tagged to include in note later

Click Tag

Add Images to Dynamic Document

After images have been tagged, open Note template.
